Opportunities to Improve the Leadership Council

Starting to feel movement towards making actual change in all areas of the state

Length and format of meeting is challenging – lots of housekeeping

It's a hard time to think critically

Concerns from other organizations across the state the partnerships need to be more inclusive

Better delineate sectors to consider well-defined topics

Begin to do work in smaller workgroups, break-out rooms – the group is really large

Shorter summaries – so many documents.

Continue to be transparent and seek input from members for solutions

Only meet 1x per month

Split up and focus on work in smaller groups/teams

The work of the Leadership Council is a critical component for the planning, design and implementation of MOMS. Please describe what you think the program staff of MOMS could do to improve the Leadership Council.

- I feel movement towards areas where we can start to discuss actual changes in all areas of the state.
 - I believe we are working towards this and do understand that with the development of any group there are a lot of implementation objectives that must be handled first.
- Other organizations are concerned about lack of involvement as most everything is communicated as a partnership with Billings Clinic. Although they are doing important work, in order to be a true, statewide program, this needs to be minimized and others are invited to the table.
- Agendas are full, possibly fewer items and facilitate to pull for more dialogue from quiet members; They have a very clinical focus and at times I think we need more clinical representation.
- Only meet once monthly and let favorites chose their own AIM algorithm.
- The length and format of the meeting is difficult. Lots of time spend on 'housekeeping' and unproductive items, leaving little time for substantive issues. I think it could be improved with better, more thoughtful coordination and manipulation of the format to include breakout rooms, polls, and better delineated 'sectors' to consider well-defined topics.

The work of the Leadership Council is a critical component for the planning, design and implementation of MOMS. Please describe what you think the program staff of MOMS could do to improve the Leadership Council.

- I have not been able to participate as much as I would like, so I am not a good representative to answer this.
- Continue to be transparent on challenges/barriers and seek input from the members for their solutions.
- Shorter Summaries of what is a priority would help. There are so many documents it is difficult to keep it straight.
- the group is quite large, I believe that the best productivity will come if we can split up into focused groups that are targeting specific items
- The time is difficult for critical thinking activities.
- If activities require discussion, break into smaller groups and allot more time to participate.
